Experience

Master Technician / KDIT – In House Trainer

Vidhata Kia • Ludhiana

08/2023 – Present 03/2025 – Present (promoted to KDIT along with roles of Master Technician)

- As a Master Technician specializing in ADAS calibration, I possess extensive experience in troubleshooting and resolving intricate technical issues. My expertise lies in accurately calibrating ADAS sensors and systems, ensuring optimal performance and adherence to industry standards. I am proficient in employing advanced diagnostic tools and techniques to identify and rectify malfunctions effectively. Moreover, my comprehensive understanding of ADAS technology enables me to provide comprehensive technical support and guidance to colleagues. I am eager to contribute my skills and knowledge to maintain the highest level of technical proficiency within our team.
- Executed company policies, procedures, and safety standards to ensure the proper cleanliness and safety of the office and equipment
- Continually updated a leadership resume and honed skills by participating in various management trainings

Service Technician

Vidhata Honda • Ludhiana

01/2021 - 07/2023

The service technician role is crucial for ensuring smooth operations and customer satisfaction. Equipped with a service car, the technician travels to various locations, performing scheduled maintenance and necessary repairs.

Responsibilities include conducting periodic inspections, identifying potential issues, and replacing faulty parts. The service technician's expertise in troubleshooting errors is essential for minimizing downtime and restoring functionality. Their dedication and technical skills contribute significantly to the overall reliability and longevity of equipment.

Education

Automobile Engineering

Guru Nanak Dev Polytechnic College • Ludhiana

03/2021

It's admirable to take on such ambitious projects during your final semester. Focusing on sustainable solutions like EV charging is both relevant and impactful. Remember to carefully plan your timelines and resources for these endeavors. Collaboration and seeking guidance from professors can be invaluable throughout the process. Wishing you the best of luck in bringing these projects to fruition.
